**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 23 June 2003.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Receipt is acknowledged of Amendment filed on June 23, 2003. Claims 1-8 and 10-18 are pending. Claim rejections as indicated in the previous Office action dated March 27, 2003 are withdrawn and new rejections are made in view of the claim amendments.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 and 10-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "substantially" in claims 1 and 18 is a relative term which renders the claim indefinite. The term "substantially" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. In this case, while applicants' specification teaches that glycerin can be optionally used as a tonicity agent, there is no indication in the disclosure as to what quantity of polyol in the claimed composition is considered "substantially" free of the component. The metes and bounds of the scope of the claim is unascertainable.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1617

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 8, 10-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Tsuzuki et al. (US 6417144 B2) ("Tsuzuki").

Tsuzuki discloses a contact lens solution comprising 0.05 – 0.1 w/v % by weight of CAE (N-coconut oil fatty acid acyl L-arginine ethyl-DL-pyrrolidone carboxylate, an amino acid type cationic surfactant), Poloxamer 407 (surfactant), 0.1 w/v % of Bis-Tris EDTA (a chelating agent), NaCl (a tonicity agent), and hydroxypropylmethyl cellulose (a thickener). See Tables 1 and 2; instant claims 1, 2, 5, 10-17. The reference teaches that the amino acid type cationic surfactant has disinfection power in addition to the cleaning power, which meets the microbicide limitation of the instant claim 1. See Tsuzuki, col. 7, lines 9 – 20. The reference also teaches that the pH of the solutions are 7.3. See col. 7, lines 36 – 42; instant claims.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 6, 7, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tsuzuki et al. (US 6417144) ("Tsuzuki") as applied to claims 1-5, 8, 10-18 above under § 102 (e).

While Tsuzuki fails to teach formulations comprising polyhexamethylene biguanide, the reference suggests using the polymer as a disinfectant. See col. 6, lines 48 – col. 7, line 6.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the formulations in Tsuzuki by substituting the cationic polymer therein with polyhexamethylene biguanide as suggested by the reference because of an expectation of successfully producing a contact lens solution with cleaning and disinfecting properties.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 1-8 and 10-18 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

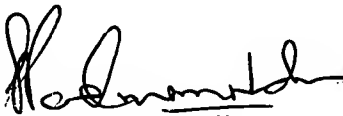

Art Unit: 1617

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
